

SPECTRA VENTURA 200T WATERMAKER

PRODUCT SPECIFICATIONS

Production / Day 200 gal (757 l) 8.3 gal (31 l) Production / Hour

Power Requirement

12v DC 10A / 24v DC 5A 14.5 Watts/1 gal 4 Watts/1 liter

Weight 60 lbs (27.7 kg)

Pre Filters 2.5"x10" pleated polyester 5 micron 2.5"x10" pleated polyester 20 micron

Controls Analog controls

Dedicated thruhull, dry and well Installation Requirements

ventilated area not to exceed

110F/37C

Membranes 20" x 2.5" High rejection spiral

wound polyamide

Pump and Motor Shurflo diaphragm pump

Salt Rejection 99.2%

Max 110F/37C Min 36F/2C Temperature Range

Baseline Conditions 33,000 PPM feed water at 77F/25C

3-11 (typical seawater pH is 8) pH Range

Chlorine Tolerance O PPM

Warranty Spectra standard warranty

Shipping Weight 80 lbs (36 kg) 33"x25"x19" Shipping Dimensions

84cm x 64cm x 49cm

FACTS

The Ventura 200T is the same size and configuration as the Ventura 150, but uses a higher displacement Clark Pump to produce more water. This allows it to operate in warm waters above 50F (10C), delivering over 8 gallons (31 liters) per hour. With it's modular design, it's an ideal system for installation in tight spaces whether you're cruising, fishing, or racing. Simple analog controls and gauges display the feed water pressure and the product flow meter. A hand-held salinity monitor and a three-way valve for product water testing are included.

FEATURES

- Simple analog control panel
- Compact modular design
- Spectra's unique Clark Pump for efficiency and reliability
- Low power consumption, can be run on batteries, solar, or wind power
- Commercial grade diaphragm pumps with run dry protection
- System includes installation kit, handheld water quality tester, and product sample valve
- Z±ION Compatible
